

**Papers by Dr. Degan Shu on the earliest deuterostomes and vertebrates from the Early Cambrian Chengjiang fauna**

1. Shu, D., Zhang, X.-L. and Chen, L. 1996a: Reinterpretation of *Yunnanozoon* as the earliest known hemichordate. – *Nature* **380**, 428-430.
2. Shu, D., Conway Morris, S. and Zhang, X.-L. 1996b: A *Pikaia*-like chordate from the Lower Cambrian of China. – *Nature* **384**, 157-158.
3. Shu, D., Conway Morris, S. *et al.* 1999a: A pipiscid-like fossil from the Lower Cambrian of South China. – *Nature* **400**: 746-749.
4. Shu, D., Luo, H., Conway Morris, S. *et al.* 1999b: Early Cambrian vertebrates from South China. – *Nature* **402**: 42-46.
5. Shu, D., Chen, L., Han, J. and Zhang, X.-L. 2001a: An early Cambrian tunicate from China. – *Nature* **411**: 472-473.
6. Shu, D., Conway Morris, S., *et al.* 2001b: Primitive deuterostomes from the Chengjiang Lagerstätte (Lower Cambrian, China). – *Nature* **414**: 419-424.
7. Shu, D., Conway Morris, S., *et al.* 2003a: Head and backbone of the Early Cambrian vertebrate *Haikouichthys*. – *Nature* **421**: 526-529.
8. Shu, D., Conway Morris, S., *et al.* 2003b: A New Species of *Yunnanozoon* with Implications for Deuterostome Evolution. – *Science* **299**: 1380-1384.
9. Shu, D. 2003: A paleontological perspective of vertebrate origin. – *Chinese Science Bulletin*, **48**(8): 725-735.
10. Shu, D. and Conway Morris, S. 2003c: Response to Comment on “A New Species of *Yunnanozoon* with Implications for Deuterostome Evolution”. – *Science* **300**: 1372 and 1372d.
11. Shu, D., S. Conway Morris, J. Han, Z.-F. Zhang, J.-N. Liu, 2004: Ancestral echinoderms from the Chengjiang deposits, China. – *Nature*, 422-428.
